

ARTESYN CSU2000AT SERIES

12 V Distributed Power System

Advanced Energy's Artesyn CSU front end series is designed to provide a flexible power conversion solution for compute, storage, and networking equipment in the common redundant power supply (CRPS) form factor. This series of AC-DC products is housed in the industry standard 1U x 73.5 mm x 185 mm CRPS form factor. Featuring a 2000 W rated power, the model can cover cost-sensitive entry level systems, or power hungry applications where there are space constraints.
